MICHIGAN

Hope Not Handcuffs is an initiative of Families Against Narcotics, aimed at bringing law enforcement, community organizations and individuals seeking assistance together in an effort to reduce dependency with heroin and prescription opioids.

A person struggling with drug addiction can come to any of the designated participating agencies and ask for help. They will be greeted with support, compassion and respect. If accepted into the program*, the individual will be guided through a brief intake process to ensure proper treatment placement.

If a person is uninsured or has Medicaid, we will work directly with the local County Health Department for placement. If a person has private insurance, we will connect them with one of over 250 treatment facilities throughout the country who are participating in the program. Regardless, our team will work to get them into treatment as soon as possible, possibly the same day.

Over 200 volunteer Angels will help with paperwork and provide compassionate support until a treatment option is found. To learn more about our Angel program, visit www.hopenothandcuffs.com
